### HISTORICAL SOCIETY.

On account of the continuation of the Revival at the M. E. Church the meeting of the Historical Society on Monday night last was postponed.—Should there be no Divine services, a full attendance is requested the coming Monday night.

"Tis sweet to be remembered." And so we thought on being presented, the other day, with a plate of nice edibles, from the hands of our generous friend, Mrs. E. We hardly know how to thank her, only by saying, in the language of our friend Shakespeare, "Lay on McDuff!"

The Meeting at the Methodist Church is still progressing. Some 25 or 30 have professed religion.

### HOW TO DO UP SHIRT BOSOMS AND COLLARS.

We have often heard ladies express a desire to know by what process the fine gloss observable on new lines, shirt bosoms, collars, etc., is produced, and in order to gratify them, we submit the following receipt, taken from an exchange, for making Gum Arabic Starch:

"Take 2 oz. fine white gum arabic powder, put it into a pitcher, and on it a pint or more of boiling water—according to the degree of strength you desire—and then having covered it, let it set all night. In the morning pour carefully from the dregs into a clean bottle, cork it and keep it for use. A tablespoonful of gum water stirred into a pint of starch made in the usual manner, will give to either white or printed lawns a look of newness, when nothing else can restore them after washing. Much diluted, it is also good for thin muslin and bobinet."

We have tested the truth of this receipt, having had a collar done up according to the direction, and if any of our fair friends have any doubts as to the efficacy of the receipt, they can see a sample by calling at our office, or satisfy themselves next Sabbath, when we will give them all a chance of seeing it on our neck, as Sunday is a day of rest, generally set apart for church duties, nice dressing, pretty looks, critical examination, &c.

The Gum Arabic Powder can be found at either of our Drug Stores.

The Post Office at Town Creek, in this county, has been discontinued.

### THE GOOD TEMPLARS.

The lodge here is in a most flourishing condition. At every meeting there are a number of initiations. The list of members exceeds one hundred considerably. Great interest is manifested by all, and the good work will no doubt, continue to go on famously.

### Singular Phenomenon.

Night before last, about half-past eight o'clock the Evening Star exhibited a most singular phenomenon, which was witnessed by hundreds of persons. When at an angle of about 45 degrees above the horizon, two streams of light, resembling the tails of a comet, radiated from the star, one above and one below, the planet—in the meantime appearing to be four times its usual size. This continued for about 15 minutes, when they began to fade away, and, although no cloud was perceptible, the star itself soon became totally obscured, and so remained for about half an hour, when it re-appeared in all its brilliancy. Who can account for it?—*Memphis Eagle & Enquirer.*

Washington, April 15.—Morse and Bowlin have officially notified the Administration that their efforts to treat with New Granada have been unsuccessful.

The Cabinet held a consultation to-day on the Isthmian affairs. It was resolved the American rights should be respected there.

Four or five vessels will be sent there shortly, with such instructions as will settle difficulties.
